

About Our School

The Boutwell Early Childhood Center serves students in both Preschool and Kindergarten. An extended day program is offered for Kindergarten students both before and after school through the CARES Program. All of our classrooms have highly qualified teachers and at least one full-time educational assistant. The Boutwell Early Childhood Center provides a wide range of special education and support services including speech, occupational and physical therapy as well as reading and mathematics support. The Kindergarten students also participate in library, physical education, art, and music classes.

Family Engagement

Families are a vital part of our school's success. Many parents and guardians are active participants in the Parent Advisory Council (PAC) and parent volunteer activities. They are also given the opportunity to participate in our joint School Advisory Council with the Wildwood Early Childhood Center.
